

Statement of participation

Ragini Singh

has passed the free course including all mandatory tests for:

Discovering chemistry

This free 24-hour course looked at the fundamentals of chemistry – atoms, chemical reactions, and the language of the chemist.

Issue date: 16 August 2026

www.open.edu/openlearn

This statement does not imply the award of credit points nor the conferment of a University Qualification.
This statement confirms that this free course and all mandatory tests were passed by the learner.

Please go to the course on OpenLearn for full details:

COURSE CODE: DC_1

Discovering chemistry

<https://www.open.edu/openlearn/science-maths-technology/chemistry/discovering-chemistry/content-section-overview>

Course summary

This course looks at the fundamental principles of chemistry – atoms, chemical reactions, why reactions happen, and the language of the chemist. This statement serves as proof of the successful completion of a course accredited by the CPD Standards Office. You have earned 24 CPD points through your participation in this course.

Learning outcomes

By completing this course, the learner should be able to:

- explain what is meant by isotopes, atomic numbers and mass numbers of the atoms of chemical elements
- indicate ways in which the chemical periodicity represented by the Periodic Table is reflected in the electronic structure of atoms
- explain how the molecular structure of chemical compounds is linked to their macroscopic properties
- construct balanced chemical equations for reactions
- use the Lewis structures of some simple chemical substances to illustrate the ideas of the octet rule, the electron-pair bond, and rationalise the three-dimensional structure of molecules.

Completed study

The learner has completed the following:

Session 1

Introduction and guidance

Session 1: Atoms – the building blocks of matter

Session 2

Session 2: Chemical compounds

Session 3

Session 3: Chemical bonding

Session 4

Session 4: More about chemical bonding

Session 4 compulsory badge quiz (score 91%)

Session 5

Session 5: Chemical reactions

Session 6

Session 6: Exploring the shapes of molecules

Session 7

Session 7: Counting atoms and molecules

Session 8

Session 8. Chemical reactions and why they happen

Session 8 compulsory badge quiz (score 91%)
